#### BULYEA EXPLAINS THE LETTER

The Local Legislature Considered Several Bills in Committee Yesterday.

Regina, Nov. 6th.—In the Assembly to-day, Patrick questioned Hon. Mr. Bulyea regarding the letter to Sir Wilfrid Laurier. The House spent the afternoon in the consideration of bills in committee.

## PEACE RIVER STEAMER

### NEW H. B. BLOCK FOR EDMONTON

Hudson Bay Co. Commissioner Greatly Impressed With Edmonton.

Mr. C. C. Chipman, Commissioner of the Hudson's Bay Company, who has been in Edmonton for the past few days, in connection with the company's business, informs the Bulletin that the company has now made final arrangements for a steamer for the Peace river. The steamer will be a stern wheeler of the latest approved type, and will have, besides carrying capacity for freight, an upper deck throughout the whole length for passenger accommodation. Captain Johnstone, who has been in command for many years of the company's British Columbia river steamers, will superintend the construction.

Mr. Chipman, during his visit, has also had in view the enlargement of the company's business premises here, and said it was not unlikely that the town will have, in the near future, a Hudson's Bay building in every respect worthy of the town and of the company's immense business.

The building in progress and the growth of the town since Mr. Chipman's last visit has greatly impressed him, and he thinks that Edmonton has a future before it which should equal the expectations of the most sanguine.

## PROVINCIAL AUTONOMY

Continued From Second Page.

Mr. OLIVER. Possibly so, but I am speaking of the condition as it exists, I am not finding fault with the proposition of Premier Haultain, but what I am finding fault with is that when the words 'provincial organization' or 'provincial autonomy' are used, the inference is being given out that we are asking for the same terms as the provinces now have. We are not asking for these terms; we would not accept them; we could not afford to accept them; we must get different terms, and the question is: Will the opposition, which is in such generous mood, agree to such terms. The leader of the opposition had this document before him, and he was careful not to say that he would. He was careful to convey the idea that this question was a mere matter of detail, and that it could be arranged by a committee. I want to say that it is not a matter of detail. I say that it is an essential question, and that upon this question hinges the willingness of the people to enter into the status of a province, or to remain outside of that status.

I was also somewhat astonished to hear the hon. member (Mr. Borden, Halifax) indicate that the question as to whether there should be one province or two was a mere matter of detail. The question of the number of provinces and the question of the subsidies which these provinces shall receive are the essential questions; other questions are matters of detail. The question whether the Territories, as they are at present, have all the powers which a province has, is one of these questions of detail, because, if they have not those powers, they can be given them in their present condition as well as if they were a province. The hon. leader of the opposition questioned the previous statement of the premier, that the only important right belonging to a province which the Territories did not hold was the right to incur debt. That statement stands and stands correct in all essential particulars. If the Territories lack any other power than that, it can be given them without provincial organization. But the power to incur debt rests, not upon a legislative enactment in itself, but upon a fixed subsidy being granted. Until there is a fixed subsidy, the province, if the Territories were created or called a province tomorrow, could not incur debt. Though this parliament were to pass a thousand Acts allowing it to incur debt, its credit would not be good until it had a fixed subsidy, except upon a basis of direct provincial taxation. Therefore, the question of incurring debt depends entirely upon the terms upon which the subsidy for the province to be created is granted. Given an adequate fixed subsidy, the province, or the Territories, if they were called such, could incur debt, because their credit would be good.

The difference between the powers of the Territories as they exist, and the powers of a province are not of chief importance. The chief purpose of local government is to attend to local interests, of which the greater are the needs of education, the taking care of municipal legislation and the providing of the smaller public works. If these needs are attended to it matters not to the citizens generally whether it is under the name of a province or of Territories. If the needs and requirements of the people are met, the people are better satisfied than they would be with an empty offer to allow them to sell their public lands and to incur debt on their own account, which, as far as the proposition has been laid before us is concerned, might have to be met by direct provincial taxation.

**AFFAIRS IN BRITISH COLUMBIA.**  
Vancouver, B. C., Nov. 5.—All public works were stopped throughout British Columbia today on telegraphic orders from Victoria. The explanation is that all appropriations have been exhausted and the bankers of the government peremptorily decline to further stretch the elastic overdraft. In the case of the Westminster-Ladner trunk road, Westminster city and the Delta municipality, assumed part of the cost to secure immediate construction. Their contribution is spent. On the trans-Fraser bridge, it is stated that the payments are now almost a quarter of a million dollars beyond the legislative appropriations.

**HOMESTEAD REGULATIONS.**  
Any even numbered section of Dominion Lands in Manitoba or the North-West Territories, excepting 8 and 26, which have not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

**ENTRY.**  
Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the Local Agent for the district in

which the land is situated, receive authority for some one to make entry for him. A fee of \$10 is charged for a homestead entry.

## HOMESTEAD DUTIES.

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto to perform the condition connected therewith under one of the following plans:—

1. At least six months' residence upon and cultivation of the land in each year during the term of three years.

2. If the father (or mother, if the father is deceased) or any person who is eligible to make a homestead entry under the provisions of this act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3. If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by the Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

**APPLICATION FOR PATENT.**  
Should be made at the end of the three years before the Local Agent, Sub Agent or the Homestead Inspector. Before making application for patent the settler must have six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

**INFORMATION.**  
Newly arrived immigrants will receive at the Immigration office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-West Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg; Manitoba; or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.

## CURLING CLUB

Edmonton Curling Club  
Is in a Very Prosperous  
Condition.

That Edmonton takes a leading place among the curling clubs is to be seen from the following from the Winnipeg Free Press: "The Edmonton club is now one of the largest clubs in the association, being exceeded only by the Duluth and Winnipeg Granite clubs. It speaks well for this future city of the far northwest that they should have such an enthusiastic lot of curlers. They are in Alberta district and a hope is expressed that Strathcona and Fort Saskatchewan will affiliate this year and thus create a good local district. The club expects to hold a big local bonspiel this season."

The officers of the club for the coming season are:  
Patron, J. A. McDougall,  
President, R. Secord, M.L.A.,  
First Vice-President, J. B. Mercer,  
Second Vice-President, A. C. Fraser,  
Secretary Treasurer, W. Ramsay,  
Chaplain, Rev. D. G. McQueen.  
Executive committee, W. Richardson, T. G. Lander, F. Osborne, J. L. Stubbins, G. Mansel.

Already a number of rinks have been formed, and prospects are for a great increase in membership. At a meeting of the executive committee a resolution was passed that each rink must contain a green player and skips in forming rinks are requested to take note of this regulation.

P. Shaver has been engaged as caretaker and is getting the rink into good condition ready for flooding, so there will be no delay when cold weather sets in.

## LOCAL

A couple of good hockey players have arrived in Edmonton during the last few days.

Messrs. John Kelly and Wm. Elliott, Edmonton have purchased the Queen's hotel, Wetaskiwin. They took possession yesterday.

A year ago to-night the river froze over. The river had been thick with ice several days previous and the ground had been frozen solid.

The main line train from east of Calgary failed to connect with the northbound yesterday, and as a consequence no eastern mail was received from Edmonton last night.

## GOVERNMENT SURVEY WORK

Major Hubbell, of Ottawa, government surveyor, is in Edmonton today. He has been in the country east of Wetaskiwin, since April last, on government survey work. His party commenced work at Rosehill and proceeded eastward to Wavy Lake. They resumed work over eight hundred miles. The party had a very successful season. The summer was rainy, but the fall weather was beautiful. The country east of Wetaskiwin is very fine for agricultural purposes and it is rapidly filling up. A large number of Norwegians are settling in this district and are erecting good commodious houses. The

ALL ROADS  
LEAD TO  
EDMONTON

EDMONTON is the centre of attraction of the North-West Territories today. No place in the west occupies such a unique and enviable position. It being the centre of the largest and richest agricultural and mixed farming district in Canada.

The future coal supply depot for the Territories, hence the future manufacturing metropolis of the country. The coming great railway centre of the west. The gateway to the great agricultural, fur and timber country to the north and the distributing point for an area exceeding 900,000 square miles. The extent and far reaching trade of Edmonton is a source of wonderment and surprise to visitors but is only an indication of what it is going to become. Edmonton is to-day one of the greatest distributing points of the world, forwarding goods over an area six times the size of the British Isles.

The world moves and so does Edmonton. It is a beehive of industry. It is estimated that about 700 buildings have been erected this year and no sign of a let up. Building operations were carried on all last winter and will be all this winter. The future of Edmonton is assured. Nothing can hinder or keep it back.

The long days of waiting and uncertainty are over. "There is a tide in the affairs of men, which, if taken at the flood, leads on to fortune." The flood tide is upon us. Now is your opportunity. No time like the present. Don't forget October 19th the day on which we begin, the sale of lots on

This is a beautiful residential site, high, dry and clean and is going to be a very popular locality, being so convenient to the business centre and being outside the town limits free of Municipal taxes. Many enquiries for them are already being made.

## The Sale Is Now On.

Take advantage of this opportunity and you won't have to look back upon it with regret as another lost chance.

TERMS:—One-quarter Cash; Balance in Three Equal Annual Payments with Interest at 8 per cent.

Think of the money that has been made in Town Lots here in the past two years, is being made and going to be made. Think of the money you might have made by buying early if you did not. Buy some of these lots and make money.
